

## Cáscara concentrate, ready to dose

Concentrate from cáscara, the husk of the coffee cherry – fruity-fine, naturally caffeinated, sugar-free. For iced tea, lemonade, cold brew and non-alcoholic signature drinks. Three flavours: Natural, Mango Passion Fruit, Raspberry Lemon.

|                       |                                                                                                                               |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>Packaging</b>      | 1-kg bottle (≈ 750 ml) with dosing pump                                                                                       |
| <b>Dosage</b>         | 1 pump ≈ 5 g per glass (200 ml) · batch: ≈ 25 pumps (125 g) per 5-litre dispenser                                             |
| <b>Yield</b>          | ~200 servings per bottle (1 kg) · <b>~€0.40 ingredient cost per drink</b> (at the maximum price)                              |
| <b>Ingredients</b>    | Cáscara extract, sweeteners (sucralose, acesulfame K), citric acid, flavouring                                                |
| <b>Sugar</b>          | sugar-free                                                                                                                    |
| <b>Caffeine</b>       | ~38 mg per pump (naturally from the coffee cherry) – about a glass of cola (330 ml)                                           |
| <b>Shelf life</b>     | 24-month BBD unopened · after opening several weeks unrefrigerated (room temperature), ~3 months refrigerated                 |
| <b>Approval</b>       | Cáscara has been approved as a food in the EU (Novel Food) since 2022                                                         |
| <b>Organic status</b> | Raw material organic-certified · certification of the finished product in progress (no seal on the product yet)               |
| <b>Origin</b>         | San Martín, Peru (~360 organic-certified farmers) · processed at origin · bottled in Germany (Bremen)                         |
| <b>Price</b>          | <b>up to €80 per bottle (1 kg = up to €80/kg)</b> · volume tiers below – the no-obligation price list comes with every sample |

### Labelling when serving

Drinks mixed and served openly in the glass (non-prepacked) are not subject to caffeine labelling – only allergen information is mandatory (Art. 44 FIC / national rules).

### Dosing guide

- Iced tea: 1 pump / 200 ml water or soda
- Lemonade: 1–2 pumps / 200 ml soda
- Cold brew tonic: 1 pump + 60 ml cold brew + tonic
- Non-alcoholic aperitif: 2 pumps / tonic + soda
